Two days' Workshop on PHP

MCA department organized PHP Web Development seminar for their students to develop PHP programming skills, Web development workshop using PHP for the MCA, CSE students. As a beginner, the students should get hands on practice in PHP and MYSQL. When it comes to web development, PHP is one among the most favored language among developers. Here at YSPM, We provide basic coding exposure to our student's right from the first year.

PHP web development was a two days session. First day Ajinkya Sir taught to PHP language and how to installed Xampp Server and how to work on the Xampp server. He started from the basics in PHP and gradually advanced the technicalities in the subject. The syntax and the formation of various functions were taught by Sir.

Working with web development languages has increased my interest in them, hence prompting me to transfer to the web design and development session at my college. The session was amazing; we understood the all critical concepts and programs. Students loved the session and the doubts were also solved accordingly. The hands on were also enlighten to the students.

Workshop on Struts, Spring and Hibernate

Date of the Workshop:- 28 Jan 2019 – 1 Feb 2019

Speaker of the Guest Lecture:- Mr. Kunal Sonu

Designation :-Director, CJC, Pune

MCA department organized the **Workshop on Struts, Spring and Hibernate**

at Yashoda Technical Campus, Satara from date 28/01/2019 to 1/2/2019. The chief guest of the Workshop was Mr. Kunal Sonu. , Who is the Director of CJC, Pune.

Firstly sir gave and introduction to the Struts. Sir said **Struts** is an open source framework that extends the **Java Servlet API** and employs a **Model, View, Controller (MVC)** architecture. It enables you to create maintainable, extensible, and flexible web applications based on standard technologies, such as **JSP pages, JavaBeans, resource bundles, and XML.** Then he take hands on training on Struts to students. He took 3-4 examples on Struts.

After Struts Sir have given information on **Hibernate.** Sir said **Hibernate** is a **Java** framework that simplifies the development of **Java** application to interact with the database. It is an open source, lightweight, **ORM (Object Relational Mapping)** tool. **Hibernate** implements the specifications of **JPA (Java Persistence API)** for data persistence.

Then sic gave brief introduction to the **HQL.** **Hibernate Query Language (HQL)** is same as **SQL (Structured Query Language)** but it doesn't depends on the table of the database. Instead of table name, we use class name in **HQL.** So it is database independent query language.

Then sir have taken various practice example on **HQL** and **Hibernate** to practice for students. Students have implemented these examples by their own.

Then Sir have given information about **Spring.** **Spring** is the most popular application development framework for enterprise **Java.** Millions of developers around the world use **Spring Framework** to create high performing, easily testable, and reusable code. That sir have given hands on training to the students on **Spring.**

Report of YCIS Visit

YCIS Visit for Demonstration of GC, HPLC, IR & SEM for Staff and M. Pharm students
On Thursday, 3rd February 2022.

As a part of the curriculum, the students are required to undertake and understand the handling and application of sophisticated instruments. We feel it will be fruitful that the students with academic background have a glimpse of the instrument working in order to have a better appreciation of practical applications to curriculum. So as part of college activity, the college has organized YCIS Visit for demonstration of GC, HPLC SEM and IR instruments for Staff and M. Pharm students.

Yashvantrao Chavan Institute of Science is reputed government aided science institute affiliated to Shivaji University, Kolhapur. Established in June 1958 as a Science wing of Chh. Shivaji College Satara, it was later established as a single faculty 'Science College' in June 1965. The science college was christened in 1986 as Yashvantrao Chavan Institute of Science. Institute is well equipped with sophisticated instruments.

Faculty members of YCIS explained all about GC, HPLC, SEM and IR instruments through its basic principle, Preparative work, working as well as troubleshooting regarding same. They also explain the interpretation of data.

The Activity is coordinated by **Dr. Sachin H. Rohane** and **Mr. A. S. Bhongale** under the guidance of B.Pharm HOD **Mr. A.M. Bhagwat** and Principal **Dr. V. K. Redasani**.

**Report on
"Multi-level Academic Quality Monitoring System (MLAQMS)"**

Academic year: 2018-19

Best Practice 1

1. Title of the practice: Multi-level Academic Quality Monitoring System (MLAQMS)

Objective of the Practice:

In Today majority of colleges are facing admission problem. Hence most of the students admitted to various courses are having poor or average academic background. Therefore, it is necessary that every lecturer/practical should be attended by students. it is just like sawing energy means generation of energy. All the classes are closely admitted at various levels. In return this also ensure that quality of teaching of faculty is improved, Therefore students feels interested in teaching learning process which improves their academic performance. Therefore this system of continuous monitoring of academic performance, identifying strength, short comings and gives specific suggestion to improve the academic performance in all aspects at regular interval by management, principal and others. This system also highlights following aspects-effective interaction between students -teacher- parents. Provide academic exposure from report to encourage and motivate faculty to have a class of learning using interactive methods for student's overall personality development.

Context:-

Students admitted to institute are from rural and city area but large chunk of admissions are from rural part. Therefore these all students are compelled to participate in teaching learning process activity from report. The institute follows the Compliance monitoring system, Diagnostic monitoring system and performance monitoring system. Compliance monitoring system is a bureaucratic type of monitoring to ensure that the educational institutions comply with predetermined standards and norms set by rules and regulations. It is mainly focused on educational input of the teachers, textbooks, classrooms, teaching equipment etc.

Diagnostic Monitoring system focuses on the instructional processes relating to what happens in the Classroom and whether the students are actually learning what they are supposed to learn. Since the teaching? Learning process is equally as important as input variables in education, having such monitoring would give insightful information on explaining the quality of education provided by the educational institutions. Similarly Performance Monitoring focuses on outputs. The emphasis of this kind of monitoring is on the academic achievement of the students through testing to see what results have been yielded by the investments made in education.

Practice:

1. The management appoints Principal who supervises and coordinates all academic and administrative activities of the college. Principal as a head of institute monitors provides the guideline at all levels. His leadership is linked to student performance and academic excellence. The contribution of leadership strengthens the overall culture of the college.
2. One faculty from each department is appointed as the Head of the Department (HOD). HOD prepares academic calendar at the beginning of each semester which includes different activities like tests, assignment execution, seminars, workshops, industrial visits, cultural-social-technical activities guest lectures and schedule of statutory committee meetings. Special sessions for the slow learners and the advanced learners are scheduled by the HOD.
3. In order to assist the HOD appoints Guardian Faculty Member and Class Coordinator is appointed. He is responsible for maintaining records of monthly attendance, status of syllabus completion and records of GFM activities. GFM is a guardian faculty member of particular students who plays important role in mentoring of students, monitoring their attendance, preparation of monthly attendance. GFM also acts as mediator between institute and parents. Mentor mentee ratio is maintained and the grievances are taken into consideration. Subject teacher prepares academic plan, teaching plan, practical plan, unit wise question bank, MCQ's, assignments of respective subjects and gets the approval of same from the academic coordinator. Class coordinator monitors classes additionally with others. HODs are involved in the day-to-day operations, which allow them to make decisions through the viewpoint of subordinates. This system helps in overall development, achievement of students which is beneficial for growth of the institute and also the students skills are developed as per the industrial expectations.

Evidence of Success:

1. Faculty always remains update with regards to all academic requirements and follows the schedule as per the academic calendar designed by the Head of the Department.
2. Faculty also gets guidance for improvement in their weak areas from the Head of the Department and principal if necessary. Faculties are encouraged to attend the faculty development programmes.

3. Academic grants for individual faculty are provided for the participation in Conference, Faculty development Programs and carrier development.
4. Systematic academic record is maintained by the departmental academic coordinator and also the class coordinator to examine the slow learners. The efforts are made for the slow learners by conducting extra classes.
5. Friendly interaction between teacher-student-parent is maintained due to Guardian Faculty member. The student's grievances pertaining to various aspects are resolved.
6. Academic performance is increased among the students due to multi monitoring system.
7. Due to smooth conduction of the academics the performance of the students in the examination has been increased.
8. Team spirit among faculty and students is developed.
9. After discussion with the student and their parents, the guardian faculty member gets aware of problems faced by the student. Guardian Faculty Member helps the student to overcome the problems by continuous counseling in presence of their parents.

Problems encountered and resource required:

1. Time constraint for completion of the activity especially for first year students due to delay in the admission process of government authorities.
2. At initial stage parents are reluctant to share personal information of their ward and attend the parents meeting. Even the new students have a fear of being open for the grievances they have in GFM meeting.
